

Organizing My Work

1. It's time to start my work. First I should write out the directions.

2. Now it's time to make a plan.

- ✓ I need to get organized so I can highlight what I need to do and make a checklist.

3. If I get stuck I can ask for help. I can ask a clarifying question such as:

- ✓ "Can you repeat the question?"
- ✓ "Can you explain it to me?"
- ✓ "Can you give me a hint?"
- ✓ "Can you show me?"

4. If I'm still having trouble, I can say "I don't understand."
